SGA News

## Pizza Party

We're thrilled to report that the recent SGA Pizza Party was a resounding success! Our students came together to indulge in a delicious array of pizzas, showcasing their love for this culinary delight. From the classic Margherita to combinations like BBQ chicken and Hawaiian, there was something to tantalize every palate.

The event buzzed with laughter, camaraderie, and of course, the savory aroma of freshly baked pizzas. We extend our heartfelt thanks to all who attended and made this event memorable. Our students' enthusiasm and spirit truly made the Pizza Party a fun day well spent!

## SGA STAR BOX

The STAR BOX officially launched last week, and SGA students are invited to send their Suggestions, Thoughts, and Recommendations to our school administration team. The creative suggestion box is there for students to voice their concerns and suggestions anytime during the semester.

An open and transparent way to encourage our students to communicate directly with school officials ensures they are happy and satisfied throughout their school year term.

## Testimonial

## Eunjun Lee from Korea

Studying abroad is a challenge but an amazing decision for every international student, For Eunjun, completing a high school diploma at SGA and then pursuing a university degree would be an exciting journey for his life.

### Q: What do you think about studying at SGA?

Studying at St. George Academy has been an enriching experience for me as a Korean student. The community at SGA is incredibly welcoming and supportive. I've had the opportunity to form friendships with peers from various cultural backgrounds, fostering a sense of global understanding. Also, the staff and counselors at SGA have been instrumental in helping me adjust to life abroad, providing invaluable support in navigating everyday challenges and facilitating a smooth transition to overseas life.

### Q: Why would you recommend SGA to students considering joining a high school?

I highly recommend St. George Academy to any student considering studying abroad. SGA offers a rigorous and comprehensive education system designed to empower students to achieve their academic and career aspirations. Many of my peers have successfully gained admission to top universities. The personalized attention and assistance provided by SGA ensure that each student can explore their interests and pursue their dream programs with confidence.
