August Semester Orientation

On August 1, We're kicking off the first day of the August semester with a warm welcome and delicious morning snacks for our new and returning students! There's nothing like starting the day with tasty treats and big smiles. It's fantastic to see everyone back, ready to dive into their studies and make the most of this new school year. Our students are not just hitting the books but also having a blast playing foosball and catching up with friends. Here's to a great semester ahead full of learning, fun, and unforgettable memories! Let's make it the best one yet!

Korean Festival Volunteer Activity

SGA students volunteered at the Toronto Korean Festival this past weekend, playing an essential role in bringing the vibrant spirit of Korean culture to our community. From setting up booths and guiding attendees to serving delicious food and helping with traditional games, their hard work and dedication made the festival a huge success. Volunteering at this big event is a cherished tradition at SGA—every year, our students eagerly participate to support and celebrate this cultural showcase. We're incredibly proud of the energy and passion they displayed, and we're grateful for the positive impact they continue to make.

Testimonial

Tiffany Huynh from Vietnam

Studying abroad is a challenge but an amazing decision for every international student, Tiffany Huynh, completing a high school diploma in Canada at SGA, and receiving a letter of acceptance from Centennial College for pursuing her diploma degree is an exciting life journey.

Q: What do you think about studying at SGA?

St. George Academy is a unique school compared to other schools because I can communicate and make friends with many students who have different backgrounds and cultures. The school has created many activities so we can work hard and study hard at the same time.

Q: Could you share more about the in-class memories' at SGA?

At first, it was very hard for me to catch up with the English class, because my English level was not good, I was shy because I couldn't talk much. Then, the teacher gave us excitement every week and I had to practice presentations in front of everyone, that helped to increase my confidence level and I started to improve tremendously during the year. I also love the movie time that we have together.

Q: Does the quality of education meet your expectations?

I would say that the quality of education at SGA exceeds my expectations because I received more than expected. The school provides us a chance to study in a small size of classroom, so it's easy for me to have a chance to talk to my teacher and ask them more questions whenever I don't understand clearly in class. Also, I have the counsellor session every week and it helps me to know if I am on track with my study plan or not. Therefore, I achieved my goal which is to study Health Care program at Centennial College.
